CITY OF CLARKSBURG

Updates from City Manager, Tiffany Fell

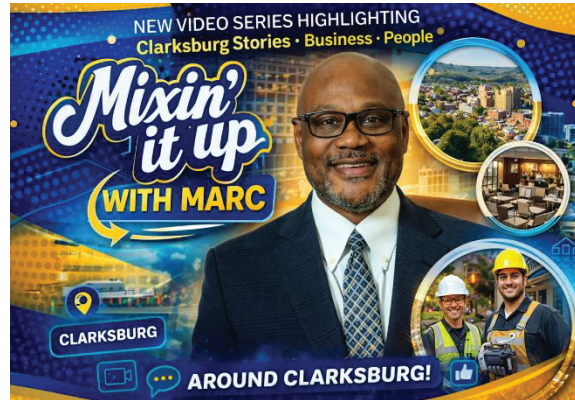

Community Engagement Through New Video Series:

The City has been encouraged by the positive response to our new city video series highlighting local businesses and community members. The goal of the series is to spotlight the people and businesses that help make Clarksburg a vibrant and welcoming community while also promoting local economic activity.

These short videos feature local businesses, entrepreneurs, and residents who are making a difference in our city. By sharing their stories, we are helping raise awareness of the many services, experiences, and opportunities available here in Clarksburg while encouraging residents to support local establishments.

The videos are being shared across the City's social media platforms and other communication channels, allowing us to reach a broader audience and showcase the character of our community.

The early response from residents and viewers has been very positive, and we look forward to continuing the series and highlighting more businesses and

community members in the future.

This initiative is another example of how the City is working to promote Clarksburg, strengthen community pride, and support the local economy.
